

Developer Guide For Product Extra Flag Module

● Description

“**Product Extra Flags**” Module provides features to add extra flags on products. Users can add custom flags on every single product and also add on particular categories. This Module allows users to make flags more attractive that will help to increase product sales on festivals and special occasions.

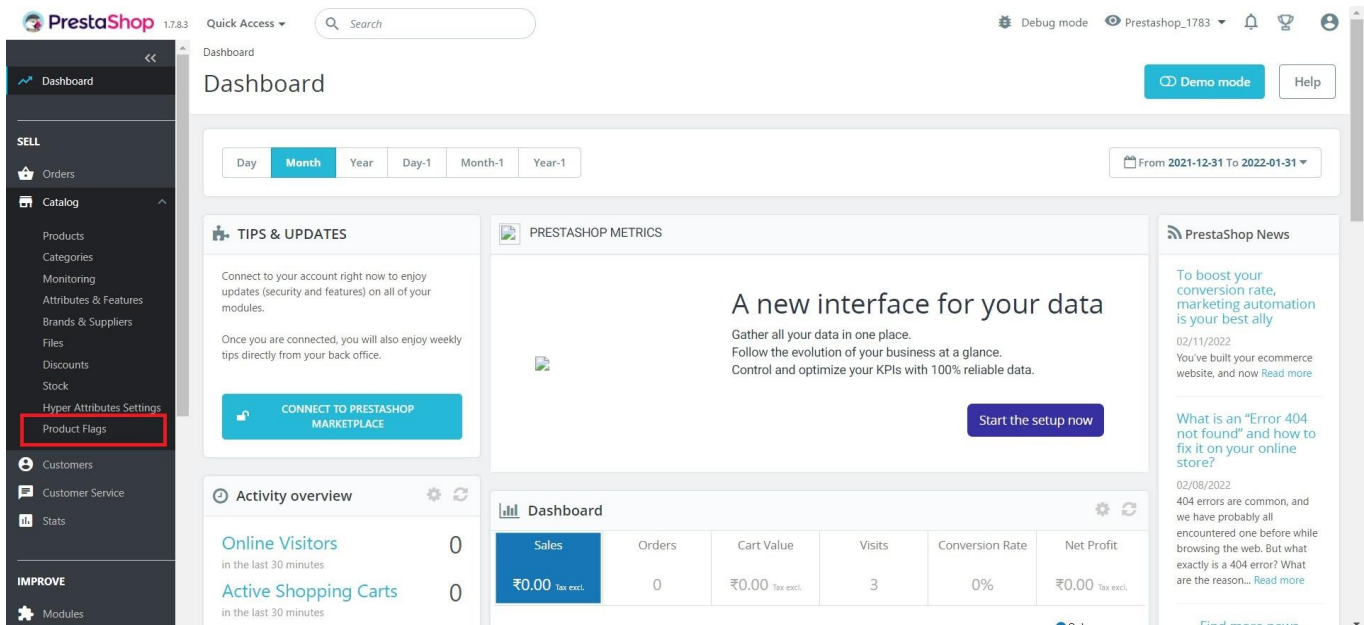

● Features

1. Users can add extra flags on single products and categories.
2. Flags can be customized according to users.
3. Users can give the display position to the flag.
4. Users can set text color and background color for flags.
5. Flags can be set for a specific time period.
6. Flags can be text or image (png,svg only).
7. Users can apply flags on specific store, this feature works only when multi-stored is activated.

● How to use

1. Install the “**Product Extra Flags**” Module in your Prestashop Project.
2. Go to module :

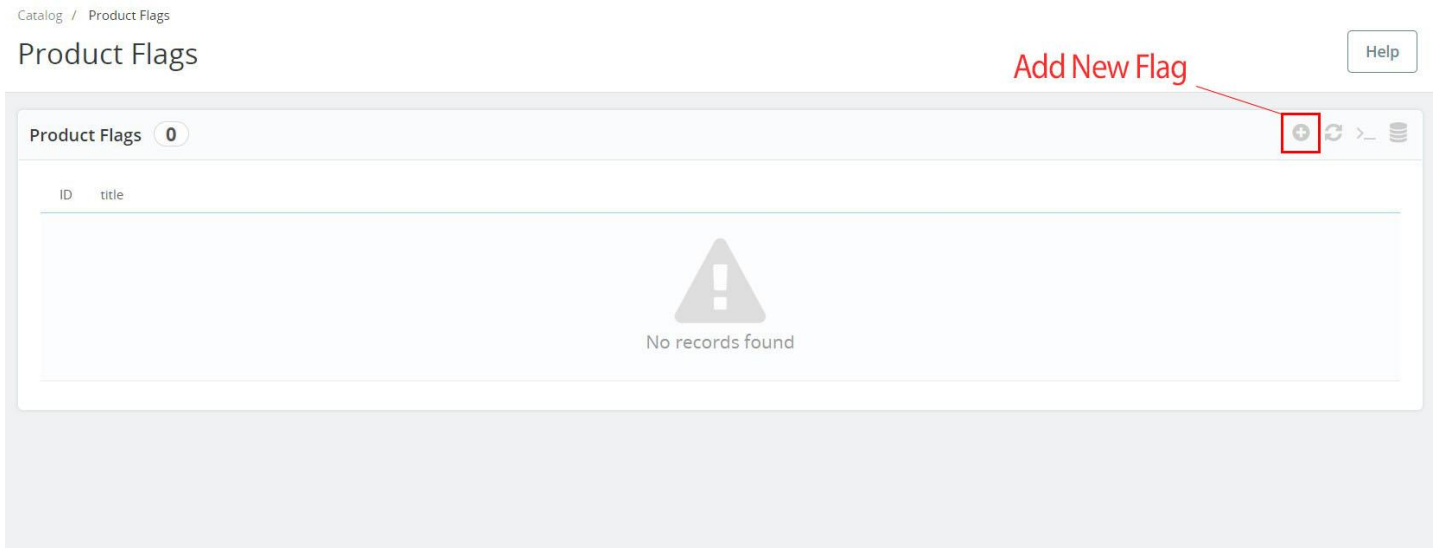

Prestashop Admin dashboard-> Catalog -> Product Flags

The screenshot displays the Prestashop Admin Dashboard. On the left sidebar, under the 'SELL' section, the 'Product Flags' module is highlighted with a red box. The main dashboard area shows various metrics and updates. The 'PRESTASHOP METRICS' section features a large card titled 'A new interface for your data' with a 'Start the setup now' button. Below this, there is an 'Activity overview' section with 'Online Visitors' and 'Active Shopping Carts' both at 0. A table titled 'Dashboard' shows key performance indicators for Sales, Orders, Cart Value, Visits, Conversion Rate, and Net Profit. The 'Sales' row shows ₹0.00 Tax excl., 0 Orders, ₹0.00 Tax excl. Cart Value, 3 Visits, 0% Conversion Rate, and ₹0.00 Tax excl. Net Profit.

Sales	Orders	Cart Value	Visits	Conversion Rate	Net Profit
₹0.00 Tax excl.	0	₹0.00 Tax excl.	3	0%	₹0.00 Tax excl.
